### **DETAILED ACTION**

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 1/24/11 has been entered.

### ***Information Disclosure Statement***

The information disclosure statement filed 1/24/11 fails to comply with 37 CFR 1.98(a)(3) because it does not include a concise explanation of the relevance of reference JP-6-092134, as it is presently understood by the individual designated in 37 CFR 1.56(c) most knowledgeable about the content of the information, of each patent listed that is not in the English language and does not list the publication date. Additionally, although provisionally considered, the reference JP-2002-514333 has been crossed out because the Name of Patentee or Applicant's of the cited document is omitted.

### ***Allowed Claims***

The most relevant references: Mariyasu (USPN 5699512) directed to software analysis protection where software to be used on a user terminal is provided as divided parts which are stored in a distributed user terminal, wherein an arranged pattern of the

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on statement of Reasons for Allowance".
